

REMARKS

In the application submitted on August 28, 2003, two figures (i.e., Figures 6 and 7) that represent the conventional image display module were inadvertently omitted. These two drawings represent prior art image display modules, which are outside the scope of the invention presented in the above identified application. Thus, their presence or absence in the application does not affect the patentability of the present invention, and add no new matter to the application. However, Applicant believes that the addition of these two drawings to the application would assist the Examiner in conducting search and better understanding of the present invention. Therefore, the addition of these drawings are respectfully requested.

In view of the foregoing, the application is now in condition for examination and an early notice is respectfully requested. Should the application not be in condition for allowance, the examiner is requested to contact the applicant's attorney to resolve the problem.

Respectfully submitted,

A handwritten signature in black ink that reads "Fei-Fei Chao". The signature is written in a cursive, flowing style.

Fei-Fei Chao, Ph.D.
Reg. No. 43,538
